Welcome

Heung Bong Cha, PhD

As president of IAGG, I am very pleased to offer my warmest welcome to all participants who have come to San Francisco to attend the 21st IAGG World Congress of Gerontology and Geriatrics.

World-wide population ageing is a pressing issue that humanity has been facing for decades. Due to the increased life expectancy and low birth rates, the number of 60+ older individuals is expected to rise tenfold from 200 million to 2 billion from 1950 to 2050 and will comprise 22% of global total population. The increased life expectancy should be celebrated as an accomplishment, but we know such a development also presents manifold challenges. However, these challenges could be conceived of as opportunities when we see them with a different perspective. We need to avail ourselves of these opportunities to make the best out of the aging phenomenon and transform them into age integration patterns that optimally meet the needs of today's and the future's older adults. In order to do so, the paradigm of 'Healthy and Active Ageing' has been created and pursued, particularly in IAGG's endeavors since its 2013 Seoul Congress.

The mission of IAGG is to promote the highest levels of achievement in gerontological research and training worldwide, and to interact with other international, inter-governmental and non-governmental organizations in the promotion of gerontological interests globally and on behalf of its member associations. Therefore, I sincerely hope that the San Francisco IAGG World Congress will be an academic arena where all of us can share our knowledge and ideas, and offer practical solutions to a variety of problems, thereby contributing to the enhancement of the academic level and to the improvement of the quality of life of older people.

Lastly, I would like to take this opportunity to express my deep thanks to Prof. John W. Rowe, President-Elect of IAGG / President, 21st IAGG World Congress of Gerontology and Geriatrics, and all the staff members of the Gerontological Society of America (GSA) for their total dedication and ceaseless efforts during the past years to make the Congress a highly successful and rewarding international festival for everyone.

International Association of Gerontology and Geriatrics

John W. Rowe, MD

Welcome to San Francisco "Everybody's Favorite City" and the 21st World Congress of the International Association of Gerontology and Geriatrics!

On behalf of the Organizing Committee I extend our best wishes and hope that you find the Congress a very rewarding professional experience. The World Congress is an excellent opportunity to learn about the most exciting advances in the field and to share your interests with outstanding colleagues from around the world. This year we expect this gathering to attract 5,500 scholars, practitioners, educators and students from across the globe. With over 8,000 abstract submissions, the rich program explores many dimensions of the Congress theme, "Global Aging and Health: Bridging Science, Policy and Practice".

I would like to express my deep appreciation to The Gerontological Society of America who is acting as the host organization for this Congress and to the five

co-host organizations (American Federation for Aging Research, American Aging Association, Association for Gerontology in Higher Education, American Society on Aging, and National Council on Aging) for participating. In addition, I'd like to thank the Organizing Committee for their outstanding efforts in developing an exciting, state-of-the-art program.

And please remember that while our World Congress is held every four years, we welcome your participation in IAGG's ongoing very active global program that supports education, practice and research in Gerontology and Geriatrics.

My very best wishes for a most enjoyable and productive meeting.

A handwritten signature in black ink that reads "John W. Rowe".

International Association of Gerontology & Geriatrics

Welcome

Barbara Resnick, PhD, CRNP

On behalf of The Gerontological Society of America (GSA) and its members, I welcome you to the 21st World Congress of Gerontology and Geriatrics. We are honored to serve as the host organization on behalf of the International Association of Gerontology and Geriatrics. To our international guests, we also welcome you to the United States. San Francisco is one of this country's most beautiful and distinguished cities.

GSA fosters collaboration between physicians, nurses and other clinicians, biologists, behavioral and social scientists, psychologists, social workers, economists, policy experts, and scholars from many other disciplines. We believe that interdisciplinary collaboration among researchers, clinicians and educators across disciplines, and with diverse perspectives, is the best way to achieve the greatest impact and promote healthy aging. The World Congress is the ultimate expression of this belief.

Never before have so many people from so many disciplines come together to focus on improving the lives of people as they age across the globe. Your participation in this conference will have a meaningful and lasting impact.

We hope that you develop new friends and colleagues throughout the meeting and continue those relationships long after you return home. In so doing we can all work together to improve the lives of aging and older adults around the world, enabling them to age with dignity.

Sincerely,

Barbara Resnick, PhD, CRNP

President

PS: GSA will host its next Annual Scientific Meeting from November 14-18, 2018, in Boston, Massachusetts. Join us!

Family Caregiving Institute Faculty

THE BETTY IRENE MOORE SCHOOL OF NURSING AT UC DAVIS seeks visionary researchers and educators to join the school as founding faculty for the Family Caregiving Institute, which launched in April 2017 with a \$5 million grant from the Gordon and Betty Moore Foundation.

Dedicated to the well-being of those who care for others, Family Caregiving Institute faculty aim to discover and disseminate knowledge to improve systems of support for caregivers—who are included as essential members of a person's care team—and seek to support them in the basic needs of caring for someone outside of the clinical setting.

These faculty positions offer a number of unique opportunities to:

- conduct significant, innovative and high-impact research in family caregiving
- join a creative and interprofessional faculty team
- participate in transdisciplinary collaboration with researchers throughout UC Davis
- work from a brand-new, state-of-the-art facility—Betty Irene Moore Hall—which is designed to support a vision of innovation

UC Davis Health includes the School of Nursing, the School of Medicine, a 627-bed acute-care teaching hospital and a physician practice group. It is home to a National Cancer Institute-designated comprehensive cancer center, an international neurodevelopmental institute, a stem cell institute and a comprehensive children's hospital. Together, they make UC Davis a hub of innovation that transforms health for all.

Open recruitments include two tenure-track faculty and one clinical faculty to serve as a program lead. For full position descriptions and to apply, visit <http://nursing.ucdavis.edu/ourteam/join>.

UC DAVIS
BETTY IRENE MOORE

GREETINGS FROM THE MAYOR

On behalf of the City and County of San Francisco, it is with great pleasure that I welcome you to the IAGG 2017 World Congress. This conference presents the latest in science, research, training and policy developments by experts from around the world.

San Francisco is proud to host this event in our beautiful City. This year's theme "Global Aging and Health: Bridging Science, Policy and Practice" brings together more than 6000 of the greatest minds in medicine, nursing, biological science, social science, policy fields and more to address the current and unique methods to further our collective goal of improving the quality of life of older adults.

I commend the International Association of Gerontology and Geriatrics (IAGG) and The Gerontological Society of America (GSA) for hosting this important conference and for making this event a true success. Best wishes for a productive and enjoyable conference.

With warmest regards,

Resources for Attendees

1. Addendum

The Addendum includes any last-minute changes to the Program Book.

2. Electronic Abstract Book

A digital publication, a supplemental issue of *Innovation in Aging*, contains the abstracts for the IAGG 2017 World Congress, as submitted by the authors. Abstracts are arranged numerically by session number and in the order of presentation within each session. The Abstract Book contains abstracts only; schedule details can be found in this program book. You can access the electronic Abstract Book at www.geron.org/innovateage or on the Mobile Meeting app.

3. Presentations After the Meeting

Presenters were given the option to opt in to allow meeting attendees to view their presentation after the meeting. These presentations can be found at www.iagg2017.org/program two weeks after the conclusion of the meeting and will be available for one year.

4. Social Networking

Social networking and sharing are integrated into your meeting experience at IAGG 2017. Just as science crosses all borders, so does social media!

Follow IAGG 2017 on Twitter at [@IAGG2017](https://twitter.com/IAGG2017): Use twitter.com/iagg2017 for meeting updates, news, and live tweeting from key sessions. Share your updates by using the official meeting hashtag #IAGG2017. You can tweet about sessions, educational visits, or share photos.

Like IAGG 2017 on Facebook: Visit facebook.com/IAGG2017 for meeting announcements and photos. You can like the page and tag yourself in photos or share your own.

Join IAGG 2017 on Instagram: Visit [Instagram.com/IAGG2017](https://instagram.com/IAGG2017) for photos from the meeting, candid shots from attendees, and more.

Be sure to use #IAGG2017 when sharing on site. Display monitors will utilize your social content to create unique IAGG 2017 visualizations!

Social Media Guidelines

Although we encourage your use of social media in and around the World Congress, we remind you to adhere to accepted social media etiquette. Please be aware of the following guidelines when using social media:

Do

- Converse with other attendees.
- Provide feedback by tagging us @IAGG2017.
- Communicate with respect, being mindful of diversity and tolerant of differences you may encounter. Keep criticism constructive and listen carefully to others to understand their perspectives.
- Tag your posts with #IAGG2017.

Don't

- Use photographic or other recording devices—these are strictly prohibited in all plenary and poster sessions.
- Capture, transmit, or redistribute data presented at the conference—doing so may preclude subsequent publication of the data in a scholarly journal. Please do not jeopardize your colleagues' work!
- Engage in rudeness or personal attacks.

African Region

Prof. Nana Araba Apt

Professor Nana Araba Apt was the pioneer scholar on aging in Africa and contributed invaluable to the development of contemporary African gerontology.

Through her university teaching, engagement with governments and NGOs, and emphasis on finding Africa-appropriate solutions to challenges of older populations, Professor Apt inspired not only legions of young researchers and students but also policy makers and planners. She highlighted the importance of linking questions of older populations to development in Africa and posited the centrality of the family as a point

of departure for understanding and forging responses to aging in the region. Through positions on the board of HelpAge International and in countless United Nations expert forums, Professor Apt introduced a focus on aging in Africa to the international community. As a member of the technical committee drafting the Madrid International Plan of Action on Ageing (2002), she ensured that the plan adequately addressed issues pertinent to Africa. At the time of her death, Nana Apt was president of HelpAge Ghana and Emerita Dean of Academic Affairs, Ashesi College, Ghana. Professor Apt's formidable legacy has led her peers to consider her the queen of all that is African gerontology today.

Asia/Oceania Region

Prof. Sutthichai Jitapunkul

Professor Jitapunkul became president-elect of the Asia/Oceania region after running the highly successful regional congress in Chiang Mai in October 2015. He had a major role in the development of geriatrics in Thailand

over many years. Unfortunately, Professor Jitapunkul passed away in January 2016. We wish to nominate him for his enormous contributions to geriatrics in Thailand and the surrounding region, and for his lead role in the highly successful 2015 regional congress.

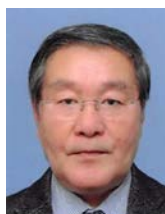

established the Korean Society of Biomedical Gerontology, the Federation of Korean Gerontological Societies, the Korea-Japan Bilateral Aging Research Exchange Program, the Korea-Japan Aging Study Group, and the Asian Aging Research Forum. Having served as a council member of IAGG and worked on the organizing committee, he played an indispensable role in attracting and organizing the fifth Asia/Oceania Regional Gerontology Conference of IAGG, and the 2013 IAGG World Congress in Seoul.

Prof. Sang Chul Park

Professor Park has contributed a great deal to establishing and promoting many biomedical societies in Korea, serving as president of the Korean Society of Biochemistry and Molecular Biology, the

Korean Society of Molecular and Cellular Biology, the Korean Society of Biomedical Gerontology, the Federation of Korean Gerontological Societies, and the International Association of Biomedical Gerontology, to name a few. He has initiated an aging research program through advising the governmental funding system for biological aging research, centenarian studies, human longitudinal studies, and development of aging research centers. He has

Prof. Yasuyoshi Ouchi

Professor Yasuyoshi Ouchi is a medical doctor and current acting president of the Federation of National Public Service Mutual Aid Associations at Toranomon Hospital. He graduated from the Faculty

of Medicine, University of Tokyo, and since 1984 he has been Professor of Internal Medicine and Professor and Chair of Geriatric Medicine. From 2006 on, he was the vice president of Tokyo Hospital until he retired in 2013. He served as president of the Japan Geriatrics Society and the Japan Gerontological Society, and as Chair of the Committee of Geriatric Research of the Science Council of Japan. He served as chair of the Asia/Oceania region of IAGG and as a council member of IAGG. He is currently Council Member Emeritus of the Japan Atherosclerosis Society and the Japanese Society of Dementia Research.

Presidential Awardees

European Region

Prof. Dorothy Joan Hardy (Dorly) Deeg

Professor Dorly Deeg was president of the Netherlands Society for Gerontology, an IAGG member society, between 2005 and 2012. Between 2012 and 2015, she was the chair of the Social and Behavioural Sciences section of the International Association of Gerontology and Geriatrics, European Region. During that time, she organized the International Winterschool for emergent scholars on the topic Valuing Ageing in Amsterdam (February 2014). Her work in the IAGG has been perceived as a role model and has stimulated European scientists to become aware of and active in IAGG—an achievement that should be considered when choosing an awardee for the IAGG Presidential Award.

Latin American Region

Prof. Jose Fernando Gomez Montes

Ever since 1996 when he became a council member of IAGG, Professor Gomez Montes has served in such prestigious positions as president of the Colombian Association of Gerontology and Geriatrics (1998–2000), on the executive committee of the Colombian Association of Gerontology and Geriatrics (2002–2008), and president of COMLAT-IAGG (2007–2011).

North America Region

Paul Glenn

After graduating from college, as an only grandson of aging grandparents, Paul Glenn had set a personal goal to improve the human condition in some significant way, particularly with regard to the human healthspan. In 1965, Glenn founded the Glenn Foundation for Medical Research (GFMR); he went on to serve on the National Advisory Council on Aging. The mission of the GFMR is to extend the healthy years of human life through support of research on mechanisms of biology that govern normal human aging and its related physiological decline, with the objective of translating research into interventions that will extend healthspan with lifespan. The GFMR primarily carries out its mission through a number of programs, providing both grants and support for conferences, workshops, symposia, and other educational opportunities for scientists. The Paul F. Glenn Centers for Biology of Aging Research focus on excellence in basic research in the biology of aging and the extension of the human healthspan. GFMR grant programs include the Glenn Center Award and the Glenn Award. The GFMR also currently funds awards, fellowships, and scholarships administered in cooperation with the American Federation for Aging Research.

Jo Ann Jenkins

As head of AARP since 2014, Jo Ann Jenkins has sponsored groundbreaking work dedicated to enhancing quality of life for all older adults. Under her leadership, AARP's vision was reimaged and redefined, challenging outdated beliefs and sparking insights relevant to today's realities of aging. Jenkins has held a variety of board and advisory positions for such entities as AARP Services, AARP Funds, the Congressional Hunger Center, the Colonial Williamsburg Foundation, the U.S. Small Business Administration Council on Underserved Communities, Living Cities, and Caring for Military Families. With expertise in talent and leadership development, organizational restructuring, public affairs, philanthropy, and marketing, she has been recognized as Non-Profit Influencer of the Year (2015) and as one of Washington's Most Influential People (2015, 2016), and has been included in the Non-Profit Times' Power and Influence Top 50 (2013–2016). She has received the Peace Corps Director's Award (2014) and was honored as a Malcolm Baldrige Fellow (2013). Her recent book, *Disrupt Aging: A Bold New Path to Living Your Best Life at Every Age*, confronts stereotypes of aging and discusses how to navigate life over 50 in today's world.

Presidential Awardees

Prof. Norah Keating

As a social gerontologist, Professor Norah Keating's professional life has been devoted to enhancing the quality of life of older adults. Her titles include Professor of Rural Ageing, Swansea University; Co-Director of Research on Aging, Policies and Practice at the University of Alberta; and Extraordinary Professor, North-West University, South Africa. As part of her international research and capacity building activities, she directs the International Association on Gerontology and Geriatrics' Global Social Issues on Ageing. Professor Keating regularly provides evidence to inform social and health policy for both governments and NGOs. Recent consultations include a report on intergenerational relationships for the UK government and meetings with policy staff of South African and New Zealand governments on their age-friendly community programs. She has worked with the Canadian government on its national campaign to reduce loneliness and social exclusion of older adults. Her involvement with the World Health Organization includes membership on the Scientific Working Group, Centre for Health Development, and the Expert Group on Community-Based Initiatives to Support Older People.

JOB TITLE: Assistant/ Associate Professor, Centre for Ageing Research and Education (CARE), Duke NUS Medical School, Singapore.

CARE is recruiting an Assistant/Associate professor to spearhead ageing research in Singapore and the region. The candidate should be able to independently drive research projects and pursue grant applications. The candidate should also possess strong quantitative skills. Experience with implementation and evaluation research is a definite advantage. The ideal candidate should enjoy working in a multidisciplinary environment, seek to establish an innovative, pragmatic research agenda in Singapore and the region, and be able to promote local capacity through mentoring and education in a highly supportive environment. Opportunities exist for diverse collaborations with Singhealth as well as other national health care organizations, programme developers on the ground as well as ageing institutes locally and with universities around the Pacific Rim. This position represents an outstanding opportunity to become a high impact international investigator in ageing and health. All-Gender Restrooms

All-Gender Restrooms will be available at Moscone West and the headquarter hotel, the Marriott Marquis. Gender-neutral restrooms are for everyone to use. IAGG 2017 is taking this step to increase comfort and accessibility for people who may not be comfortable using a single-gender restroom, including those of any gender identity, families with small children, and people with disabilities. The Marriott location will be on the fifth floor outside of Sierra B Sunday through Wednesday. The Moscone West location will be on the second level outside of Room 2024, Sunday through Thursday. The restrooms will be labeled with the following sign: All Gender Restroom.

Badge Policy

A registration badge is required for admission to all Congress events, including scientific sessions and entrance to the Exhibit Hall. No one will be admitted without a badge. Exhibit-only and accompanying person badges are ineligible for access to scientific sessions. Along with your badge, save your badge receipt—the receipt is required for entrance to specific events. If you would like your badge reprinted or you have lost your badge, you will be charged \$20 per reprint. Please visit customer service at registration.

Certificate of Attendance

To obtain a certificate of attendance, visit the Print-Your-Own Certificate of Attendance Kiosk at registration beginning on Tuesday, July 25.

Emergency, Medical, Security Assistance

IAGG 2017 is committed to making the Congress safe and secure. Congress organizers will not be liable for any lost or stolen goods, injury, or damage arising onsite or outside the venue. The organizers will not be responsible for medical, travel, or personal insurance claims. Exercise caution while traveling outside of the Congress venues, remove your name badge, and be aware of your surroundings.

Moscone West: To report an emergency, dial 511 from any house phone or use a pull station located adjacent to each emergency stairwell. Moscone West First Aid Office is located on the first floor near the Howard Street entrance, 415-974-4159.

San Francisco Marriott Marquis: To report an emergency, dial 6666 from any house phone or contact Loss Prevention Office at ext. 6081.

Family Resources

For those with children, in-hotel sitting services are offered at www.iagg2017.org/travel. Attendees must be 18 years of age or older to enter the IAGG 2017 World Congress Exhibit Hall. For nursing mothers, room Pacific F on level 4 at the Marriott Marquis has been reserved for your privacy throughout the conference. The room will be available Sunday-Wednesday on a first-come, first-serve basis. A sign will be available to hang outside the room when in use. Refrigeration and microwave will not be provided.

Filming and Photography

By attending the IAGG 2017 World Congress, you acknowledge that photographs and/or videos of you may be taken by our staff and/or photographers at any time. Furthermore, you grant IAGG 2017 permission to use photographs and/or video of your likeness in any type of media, including websites and print publications, without compensation or reward. Unauthorized audiotaping or videotaping of IAGG 2017 sessions is prohibited.

UCSF Institute for Health & Aging
and the National Center of
Excellence in Women's Health
welcome IAGG delegates from
around the world to San Francisco.

Aging is a life experience we all share. For more than 30 years, the Institute for Health & Aging at UCSF has been at the forefront of bringing innovative research to policymakers and to the public. We focus on the health and aging of individuals, communities, and society through research, education, and public service in the social and behavioral sciences.

The National Center of Excellence in Women's Health recognizes the unique medical and societal challenges faced by women as they age. Founded in 1996, the Center is addressing sex and gender influences on women's health across the lifespan with advances in clinical care, research, education and leadership and in partnership with our communities.

Together with the professionals in attendance this week, we endeavor to improve the lives and well-being of all older adults.

and learn how Nestlé's companies are creating solutions for healthy aging.

Nestlé is proud to be a supporter of IAGG 2017. As a trusted nutrition, health and wellness company, Nestlé is dedicated to creating solutions to meet the needs of our customers.

Meeting our health needs – both inside and out – can be challenging at any stage of life, and particularly as we grow older. With today's rapidly growing older population, nutrition and skin health are increasingly important factors in ensuring quality of life and healthy life expectancy. We believe that through simple and innovative solutions, we can improve the lives of the one billion of us over age 60.

Join Nestlé at **IAGG**
as We Unveil Innovations
for Successful Aging

Nestlé's Purpose is to enhance quality of life and contribute to a healthier future.

An industry-supported symposium held in conjunction with IAGG's 21st World Congress

Nestlé: Nutritional and Skin Health Solutions for Independence, Functional Ability and Wellness as We Grow Older.

A panel of leaders from across Nestlé will introduce innovative solutions that are empowering us to manage our own wellness throughout the life course. Ranging from the low tech to the high tech, these innovations offer accessible solutions for all that contribute to greater independence, functional ability and wellness as we age.

In a moderated discussion and Q&A session, the panelists and audience will explore how these solutions – from simple care regimens to personalized digital nutrition – are putting us in control of our own successful aging. Through simple and innovative solutions, we can improve the lives of the one billion of us over age 60.

Age Stage

Supported by

Sunday, July 23–Tuesday, July 25

For the first time, in collaboration with The Gerontology Society of America (GSA), IAGG will provide a new venue to highlight the many ways creativity plays a role in aging. Performances and presentations centered on and about age will take the stage. Be sure to stop by throughout the Congress to broaden your perspective on the many ways creativity positively affects physical, mental, emotional, and social aspects of aging for older adults.

Student and Emerging Scholar Activities

Pre-Conference Workshop: Crossing Geographic and Disciplinary Boundaries: Professional Development for Emerging Scholars

Sunday, July 23

12:30pm-4:30pm | Room 2002 (CC)

Fee: \$90. Pre-registration is required.

This pre-conference workshop is a collaborative effort between The Gerontological Society of America's Emerging Scholar and Professional Organization and the IAGG Council of Student Organizations. This half-day, interactive workshop will support students and emerging scholars looking to gain skills essential to building an interdisciplinary and sustainable career in aging. The workshop will begin with a keynote address, followed by three brief sessions on research, networking, and leadership in both local and global settings. Speakers include well-respected scholars and mentors from Australia, Canada, Korea, and the United States. The workshop will conclude with a roundtable session during which participants will have the opportunity to interact with speakers and fellow attendees in small-group, informal settings. All attendees will have the opportunity to submit specific questions and suggested content prior to the workshop.

IAGG International Council of the Gerontology Student Organization Symposium: Collaborative Networks for Emerging Scholars—Local, Regional, and International Perspectives

Monday, July 24

8:00am-9:30am | Salon 13 (M)

Interest in aging research is growing internationally, yet many students and emerging scholars are uncertain of the process of establishing, building, and maintaining local, regional, and international connections. To address this need, the IAGG Council of Student Organizations offers a symposium of several presentations and a structured discussion bringing a multidisciplinary and multicultural perspective to the topic of engaging in gerontological networks. Emerging scholars are pursuing, more than ever, professional networking opportunities spanning local, regional, and international borders. As access to quality information and communication technology increases across the globe, the field of gerontology is approaching a new frontier, with emerging scholars looking to establish collaborative research networks unrestricted

by geographical boundaries. Exploring the why and how of engaging locally and internationally, this symposium includes paper presentations reflecting an international perspective; a regional perspective on the challenges of networking across vast distances where there may be few student organizations; and the local perspective by The Gerontological Society of America's Emerging Scholars Professional Organization of the United States, on the establishment and momentum of a successful student organization. To conclude the session, the audience will be engaged in an interactive discussion of how to foster engagement at local, regional, and international levels.

Student Lounge

Monday, July 24–Wednesday, July 26

7:30am-4:30pm | Nob Hill A (M)

The student lounge at the IAGG 2017 World Congress of Gerontology and Geriatrics provides a place for students and emerging scholars to rest from the hectic conference pace, network with fellow members, meet with colleagues, enjoy refreshments, and check e-mail on the computers provided in the lounge. Please stop by!

Informal Chats

A series of three informal professional development chats will be held in the Student Lounge. These interactive events will allow you to get your questions answered, mingle with attendees, and network in an informal setting. No separate fee or registration is required. The chats will also blend into informal dinner outings for anyone who is interested in joining a group of fellow students and emerging scholars at a local dining establishment.

Establishing a Student Organization: A How-to Workshop

Monday, July 24

5:30pm-6:30pm | Nob Hill A (M)

Presented by the IAGG Council of Student Organizations, this interactive workshop will provide knowledge and skills for people establishing a student organization within their own country, as well as for those who wish to build the capacity of an existing student organization. Topics covered will include reasons for establishing a student organization, getting started, building a strong organization, and keeping up the momentum.

Student and Emerging Scholar Activities

The Pathway to Independent Research: Tips and Training Opportunities

Tuesday, July 25
5:30pm-6:30pm | Nob Hill A (M)

This two-part event is geared toward advanced doctoral students, transitional members, and junior faculty members who are actively pursuing a research-focused career. This chat will feature an interactive panel of early-career researchers who can offer guidance on the pathway to independence. All panelists are alumni of the National Institute on Aging (NIA) Butler Williams Scholar Program, an annual event designed to provide emerging scholars with the tools and resources to develop successful research grants. Following this chat, join panelists and other attendees for an informal networking event meant to bring together Butler Williams Program alumni, potential applicants, and NIA program staff.

Writing, Dissertations, and Publications . . . Oh, My!

Wednesday, July 26
5:30pm-6:30pm | Nob Hill A (M)

Join us for a lively informal chat where you choose the area of focus. We will have a brief presentation on the three topics followed by access to staffed tables for Master's thesis/capstone, dissertations, and publishing—each with a facilitator to share best practices and resources, as well as to answer questions and address your specific needs.

PANEL STUDY OF INCOME DYNAMICS

INSTITUTE FOR SOCIAL RESEARCH • SURVEY RESEARCH CENTER

www.psid.org

The Panel Study of Income Dynamics (PSID) is the world longest running national household panel survey.

The Panel Study of Income Dynamics (PSID) is the world longest running national household panel survey. Begun in 1968, the study has collected 40 waves of data on approximately 10,000 families and their descendants over a period of nearly five decades.

A national resource for studying health and aging

Although initially a study of family income, the PSID has become a national resource for studying health and aging. The study has followed members of the Baby Boom generation over most of their adult life. Because PSID follows descendants of original sample members, the study is also a unique resource for studying intergenerational transmission of health, economic wellbeing, and intergenerational transfers.

Examples of Health Content in PSID

- Health Behaviors
- Health Care Utilization
- Disability
- Health Conditions and Medication Use
- Health Insurance & Expenditures
- Health Status in Childhood
- Linkages to the National Death Index (under contract)

12:45pm-5:15pm Escape From 'The Rock'!

Off Site

Separate fee and pre-registration required. Buses will depart from Moscone West, Howard St. entrance.

Take a short ferry ride across the San Francisco Bay to visit one of San Francisco's most iconic and infamous landmarks, Alcatraz. The Rock, as it was called, became the prison of choice for serious offenders for a simple reason—it was believed to be inescapable. Home to such infamous characters as Al Capone, Robert "The Birdman" Stroud and George "Machine Gun" Kelly, this island attracted more prisoners than visitors until its closure in March 1963. Once on Alcatraz, take the award-winning audio tour, which features sound effects, chilling accounts of harrowing escape attempts, and descriptions of the brutality of life on the island. This tour takes you to the days when this maximum-security prison was the most feared institution in the American penal system. Upon return to San Francisco, you will have free time to shop and dine at Pier 39 and Fisherman's Wharf. Fee includes ferry to and from Alcatraz Island, admission, self-guided audio tour of the prison, and transportation.

1:00pm-5:00pm Pre-Conference Workshop: Global Ageing: Building Framework for Culturally Informed Sexuality, Gender, and LGBTQ Health Research

Room 2000 (CC)

Chair:

Karen I. Fredriksen-Goldsen

Faculty:

Brian de Vries, Charles Emler, Gloria Gutman, Boya Hua, Mark Hughes, Rebecca Jones, Hyun-Jun Kim, Andrew King, Dana Mahr, Vanessa Warri

Health, social, and economic disparities by sexual orientation, gender, and age are of growing concern worldwide. The lack of attention to sexual orientation and gender identity and expression remain significant gaps in culturally relevant aging and health research. Sponsored by Global Aging

with Pride, this workshop will explore the differing social and cultural meaning of age, sexuality, gender, and health as it relates to conducting research inclusive of LGBTQ older adults, their families, and their communities. Workshop speakers will address the unique dimensions and dynamic nature of conducting research with LGBTQ communities. Based on their experiences, the presenters will share feasible strategies to move this work forward within differing cultural, social, political, and research environments and settings. Speakers will discuss specific examples of research currently underway in such countries as Africa, Australia, Canada, China, Switzerland, the United Kingdom, and the United States.

1:00pm-5:00pm Pre-Conference Workshop: Cognition in the Health and Retirement Study and Around the Globe: The Harmonized Cognitive Aging Project

Room 2001 (CC)

Chair:

Amanda Sonnega

Faculty:

Kenneth Langa, Rebecca Wong, Jinkook Lee, Drystan Phillips, Andrew Steptoe

Separate fee and pre-registration required.

This workshop will feature presentations from principal investigators of the Health and Retirement Study (HRS) and three studies in the family of harmonized sister studies, the Mexican Health and Aging Study (MHAS), the English Longitudinal Study of Ageing (ELSA), and the Longitudinal Study of Aging in India (LASI). The presenters will discuss their studies with a special emphasis on the Harmonized Cognitive Aging Project (HCAP). The goal of HCAP is to produce research diagnoses of dementia and related disorders. One presentation will focus on the Gateway to Global Aging, which assists data users in creating their own harmonized datasets.

1:00pm-5:00pm Pre-Conference Workshop: Translating Research on Aging and Work Into Practice: Effective Strategies for Communicating With Employers (Part 1 of 2)

Room 2002 (CC)

Chair:

Jacquelyn B. James

Faculty:

Marcie Pitt-Catsouphes, Nancy Morrow-Howell, Patricia D'Antonio

Separate fee and pre-registration required

This workshop will focus on the state of knowledge about workplace-based policies and practices that make it possible for older adults to extend their labor force attachment. The workshop will address the following range of questions: What is known about the workplace and wider labor market barriers to older workers' employment? What is being done to effectively translate research knowledge in ways allowing employers to respond with innovations? Government campaigns

to raise awareness among employers regarding issues of workforce aging have had limited efficacy. What then can be done in terms of effectively reaching employers? What, if any, is the wider role of public policy in fomenting behavioral change among employers? What is the level of awareness among researchers, policymakers, and advocacy groups about the real needs of employers? What can be done to build relationships between gerontologists and such practitioners as trainers, occupational health and safety professionals, and management consultants? What conceptual tools and frameworks are needed to support employers in implementing effective age management? What are the effects of workplace interventions on the employment of older workers, and how can these effects be measured? Funding for this conference was made possible in part by grant 1 R13 AG050451-02 from the National Institute on Aging.

alternative ways of presenting information about aging—different ways to reframe aging—that have been shown to open doors to more productive public thinking. During the workshop, we will present findings about what works to reframe aging and participants will have the opportunity to work in small groups to apply recommendations for framing messages.

2:00pm-6:30pm Self-Care Technology for the Aging Population: Why We Need to Invest in Health Tech for the 60+ Consumer
Room 2003-2005 (CC)

Pre-registration is required.

In developed countries, an estimated 25% of the population will be 60 years old or older by 2030. At the same time, healthcare costs are continuing to rise, increasing pressure on already strapped healthcare systems and forcing consumers to pay more out of pocket. The convergence of these trends is turning patients into consumers who proactively seek self-care solutions—including emerging technologies—to improve their health and wellness. This panel, sponsored by Pfizer Consumer Healthcare and moderated by AOL Digital Prophet David Shing, includes Samsung, Walmart, and others. Panelists will dive into how technology is supporting the aging population and will discuss trends in consumer behavior, the impact of technology on healthcare, and the shift by manufacturers, retailers, and payers to empower consumers to practice self-care.

1:00pm-5:00pm Pre-Conference Workshop: Implementation of Frailty Screening in Health Systems
Room 2004 (CC)

Chair:

John Muscadere

Faculty:

John Young,
Kenneth Rockwood,
John Hirdes,
Matteo Cesari

Separate fee and pre-registration required.

This program will explore the impact of frailty on patient-centered outcomes, quality of life, and health resource consumption, and will address how to improve care of frail elders. In order to improve care, frailty needs to be systematically recognized such that care interventional trials studying interventions at the system or patient level are consistent. The use of common data elements, measures, and outcomes in trials will improve their interpretation, generalizability, and implementation at study conclusion.

1:00pm-5:00pm Pre-Conference Workshop: Reframing Aging: A New Approach to Change the Public's Misperceptions of Aging
Room 2006 (CC)

Faculty:

Nathaniel Kendall-Taylor, Laura A. Robbins

Separate fee and pre-registration required.

Beginning in 2014, eight leading national aging organizations, nine forward-thinking funders, and an innovative communications research group have been learning what the public really thinks about older people and how to create a new narrative on aging issues. This work has shown that a set of deep cultural beliefs impede support for a range of key aging policies and limit options for supporting older adults and enabling their contributions and connections to society. Most recently, The FrameWorks Institute has developed and empirically tested

Pre-Conference Workshop: Translating Research on Aging and Work Into Practice: Effective Strategies for Communicating With Employers (Part 2 of 2)

Separate fee and pre-registration required.

This workshop will focus on the state of knowledge about workplace-based policies and practices that make it possible for older adults to extend their labor force attachment. The workshop will address the following range of questions: What is known about the workplace and wider labor market barriers to older workers' employment? What is being done to effectively translate research knowledge in ways allowing employers to respond with innovations? Government campaigns to raise awareness among employers regarding issues of workforce aging have had limited efficacy. What then can be done in terms of effectively reaching employers? What, if any, is the wider role of public policy in fomenting behavioral change among employers? What is the level of awareness among researchers, policymakers, and advocacy groups about the real needs of employers? What can be done to build relationships between gerontologists and such practitioners as trainers, occupational health and safety professionals, and management consultants? What conceptual tools and frameworks are needed to support employers in implementing effective age management? What are the effects of workplace interventions on the employment of older workers, and how can these effects be measured? Funding for this conference was made possible in part by grant 1 R13 AG050451-02 from the National Institute on Aging.

8:00am-4:30pm Room 2000 (CC)

Chair: Teresa Seemen

Faculty: Steven Wallace, Lisbeth Nielsen, Frances Champagne, James Jackson, Elissa Epel, Jeanne Teresi, Janet Frank, Nina Harawa, Sharon Merkin

Pre-Conference Workshop: Reversibility and Mutability Research: Approaches to Reducing Health Disparities, an NIA Workshop on Innovative Issues in Minority Aging Research (RCMAR)

Separate fee and pre-registration required.

This RCMAR pre-conference will focus on key conceptual, design, measurement, and analytic issues in reversibility and mutability research building on the work of the Network on Reversibility, sponsored by the NIA and the Economic and Social Research Council (ESRC) of the United Kingdom. Presentations and interactive exercises will apply this body of work

8:00am-4:30pm Room 2001 (CC)

Faculty:
Cary Reid, Stephen Gibson, Keela Herr, Joseph Riley

Pre-Conference Workshop: Pain and Aging: Measurement, Mechanisms, and Management

Separate fee and pre-registration required.

Chronic pain represents a major public health issue among adult adults; therefore, geriatric practitioners and researchers will benefit significantly from education regarding the measurement, mechanisms, and management of later life pain. This workshop will present evidence-based information regarding pain in older adults in an interactive format, which will provide geriatric clinicians and scientists with enhanced understanding of pain in later life.

8:00am-4:30pm Room 2004 (CC)

Co-Chairs:
Kirsten Corazzini,
Michael Lepore

Faculty:
Katherine McGilton, Ruth Anderson, Barbara Bowers, David Edvardsson, Julienne Meyer, Elena Siegel, Bei Wu, Angela Leung, Adam Gordon, Anette Fagerton

Pre-Conference Workshop: Common Data Elements for International Research in Long-Term Care Homes: Advancing Person-Centered Care

Separate fee and pre-registration required.

Recently published position statements (McGilton et al., 2015; Rolland et al., 2014) identify critical gaps in empirical knowledge to support high-quality, person-centered residential long-term care from a global perspective. Key to accomplishing this agenda is the ability to develop common data elements (CDEs) that facilitate data sharing and aggregation, improve data quality, and support common outcomes measures, among other benefits. Drawing upon the

to minority aging and health disparities research including poor health outcomes of diverse older adults, distinct health behavioral pathways that mediate early life disadvantage and later life health outcomes in diverse groups, as well as the design of targeted interventions that are sensitive to population subgroups' particular needs and social contexts. The session will also include discussions of the potential for midlife plasticity of biobehavioral or psychological systems affected by early life disadvantage, and review the use of existing data-sets with appropriate variables and analytical approaches to focus reversibility research on the special issues of racial and ethnic minority populations. This course is certified by the National Board of Public Health Examiners <https://www.nbphe.org/recert/provider/offeringdetail.cfm?offeringID=1161> has certified this activity for up to 4-four Continuing Education Credits. NIH-common data elements initiative (NIH 2016), the purpose of this workshop is to develop a set of international, residential long-term care CDEs. This is the second in a two-part workshop series, the first of which was held at the annual meeting of the Gerontological Society of America (GSA) in 2016; GSA 2016 participation is not required for participation in this workshop. An expected deliverable from this workshop is the development, in partnership with the NIH/National Institute on Aging, of a summary report with recommended CDEs.

8:00am-4:30pm Pre-Conference Workshop: Rhythm and Wellness: The Science and Sensation of Music-Making With Older Adults

Room 2006 (CC)

Chair:

Connie Corley

Faculty:

John Fitzgerald

Separate fee and pre-registration required.

Rhythm-based activities create opportunities for social engagement, cognitive stimulation, and enhanced well-being in a process that is joyful, intuitive, and inspiring for older adults and those who care for them. This experiential workshop provides skills needed to plan and facilitate music-making that enlivens older adults in clinical as well as community settings. The scientific evidence base for incorporating rhythm into both spontaneous and planned activities with older adults, families, and care providers is the foundation for small-group experiences and whole-group participation in the workshop. The co-leaders combine their expertise in arts and aging with facilitation of music-making in diverse settings, including international audiences.

8:00am-4:30pm Pre-Conference Workshop: Third IAGG Global Social Initiative on Aging (GSIA) Master Class: Population Ageing and Liveable Environments of Older Persons

Sierra C (M)

Chair:

Janet Fast

Faculty:

Kieran Walsh,
Norah Keating,
Judith Philips,
Alex Mihailidis,
Loic Garcon, Laurie
Buys, Rodney
Harrell

Separate fee and pre-registration required.

This Master Class will offer early-career scholars the opportunity to work with global leaders in research and methods on livable environments for older adults. Participants will benefit from lectures, tutorials, and mentoring led by scholars with international reputations in livability. Sessions will include presentations on the state of the art related to social, built, and community environments, as well as the use of technology in supporting these; the opportunity to establish and build their international networks; and workshops in which participants may present ideas for research that will enhance quality of living environments in their own regions. The Master Class is restricted to 20 participants; prospective participants are required to apply to the Master Class.

8:00am-5:00pm Speaker Ready Room

Overlook 2014
(CC)

Visit the Speaker Ready Room to prepare for your presentation! The computers are configured with the same hardware and software as those in the presentation rooms. If you do not submit your presentation in advance, you must bring it to the Speaker Ready Room. All presenters are asked to submit their final presentation revisions no later than 4 hours prior to their presentation time. You cannot bring your presentation to your meeting room on a USB drive; it must be uploaded in the Speaker Ready Room.

8:30am-1:00pm Escape From 'The Rock'!

Off Site

Separate fee and pre-registration required. Buses will depart from Moscone West, Howard St. entrance.

Take a short ferry ride across the San Francisco Bay to visit one of San Francisco's most iconic and infamous landmarks, Alcatraz. The Rock, as it was called, became the prison of choice for serious offenders for a simple reason—it was believed to be inescapable. Home to such infamous characters as Al Capone, Robert "The Birdman" Stroud and George "Machine Gun" Kelly, this island attracted more prisoners than visitors until its closure in March 1963. Once on Alcatraz, take the award-winning audio tour, which features sound effects, chilling accounts of harrowing escape attempts, and descriptions of the brutality of life on the island. This tour takes you to the days when this maximum-security prison was the most feared institution in the American penal system. Upon return to San Francisco, you will have free time to shop and dine at Pier 39 and Fisherman's Wharf. Fee includes ferry to and from Alcatraz Island, admission, self-guided audio tour of the prison, and transportation.

9:00am-1:00pm San Francisco City Tour

Off Site

Separate fee and pre-registration required. Buses will depart from Moscone West, Howard St. entrance.

What do you imagine when you think of San Francisco? Cable cars and Victorian homes? Crooked streets and rolling hills? San Francisco is teeming with timeless images that seem nostalgic and recognizable to even first-time visitors. Neighborhood highlights may include Chinatown, Nob Hill, Civic Center, Union Square, Pier 39 and Fisherman’s Wharf, the Golden Gate Bridge, Twin Peaks, Alamo Square, and Haight-Ashbury. Fee includes private guided tour of San Francisco neighborhoods, plus transportation.

The International Network for the Prevention of Elder Abuse World Day on Elder Abuse Commemoration Event

Separate fee and registration required.

This singular event features researchers, practitioners, and advocates from around the world who collaborate to address the human rights issue of elder abuse. Using a short presentation format, selected attendees will present the major efforts in their country to address the problem. Attendees at the meeting will discuss strategies for fostering collaborative efforts among INPEA members. The meeting will also include multiple opportunities for networking and building working groups to address human rights issues concerning elder abuse, both now and in the future.

10:00am-4:00pm

Room 3018 (CC)

The 12th International Academy on Nutrition and Aging Conference (IANA2017)

Separate registration required. No cost for those attending the World Congress.

Focusing on nutrition and maintaining functions with aging, the conference aims to promote a better understanding and implementation of nutrition and age-related diseases into clinical practice. Topics include nutrition needs of older people, nutritional prevention of pathologies associated with aging, nutrition and longevity, nutrition and quality of aging, malnutrition causes and consequences, oral and enteral feeding, functional foods, and nutrition, cognitive decline, and Alzheimer’s.

Pre-Conference Workshop: Crossing Geographic and Disciplinary Boundaries: Professional Development for Emerging Scholars

Separate fee and pre-registration required.

This pre-conference workshop is a collaborative effort between The Gerontological Society of America's Emerging Scholar and Professional Organization and the IAGG Council of Student Organizations. This half-day, interactive workshop will support students and emerging scholars looking to gain skills essential to building an interdisciplinary and sustainable career in aging. The workshop will begin with a keynote address, followed by three brief sessions on research, networking, and leadership in both local and global settings. Speakers include well-respected scholars and mentors from Australia, Canada, Korea, and the United States. The workshop will conclude with a roundtable session during which participants will have the opportunity to interact with speakers and fellow attendees in small-group, informal settings. All attendees will have the opportunity to submit specific questions and suggested content prior to the workshop.

1:30pm-2:00pm Age Stage: *Even Me* Documentary Film Screening

Level 2 Lobby (CC)

In this award-winning documentary, HIV-positive people of color in Los Angeles share their brutally honest stories of living and aging with the disease. The film dispels the myths that HIV/AIDS is a gay or young person's disease and explores the truth of how HIV/AIDS is affecting elders of color in our communities.

2:00pm-2:30pm Age Stage: Portrait of a Caregiver

Level 2 Lobby (CC)

Experience how an ethnodrama created in partnership with 22 family caregivers ignited dialogue through performances produced by Walk Ons, Inc. This presentation will include a film of the performance and discussion about this exciting project.

2:40pm-3:10pm Age Stage: Arts for the Aging's Quicksilver

Level 2 Lobby (CC)

Watch how a dance company of older adults creates and performs improvisational pieces that actively engage audiences and embody a refined artistry that comes with life experience. The presentation will include a discussion of best practices and documented positive outcomes showing that regular participation in professionally led arts programs can minimize age-related physical and cognitive impairments, as well as contribute to better physical, intellectual, and emotional health.

Disrupt Aging

Jo Ann Jenkins, AARP

We have made tremendous progress when it comes to global aging. Yet, societies have not kept up with the advancements that science, technology, and innovation are making possible. As CEO of AARP, Jenkins believes it is time to coalesce around this progress and create a movement to disrupt aging—to change the conversation about what it means to grow older so aging can be something to look forward to, not something to fear. She will talk about the need to challenge outdated beliefs so more people can choose how they want to live and age. Jenkins is a nationally recognized leader and dynamic change agent with a 25-year track record of growth and innovation at some of the nation's largest public and nonprofit organizations. As CEO of AARP, she is at the helm of the world's largest nonprofit, nonpartisan membership organization, where she leads a nationwide network of staff, volunteers, and partners helping the more than 100 million Americans 50 and over achieve health security, financial resilience,

Benefiting From the Third Demographic Dividend

Adding years to our lives offers two huge opportunities: a new life stage for people globally, and the opportunity to design it for meaning and benefit to individuals, their families, and society. Key to unleashing these opportunities is investing in health so that people arrive at older age healthy and stay healthy, building new roles and responsibilities for this new life stage, and encouraging the social institutions that enable all older adults to have options that match their needs and goals. Such an approach could enable building a previously unforeseen Third Demographic Dividend, in which the assets of an aging population are brought to fruition and societies are stronger because of longer lives. Envisioning the opportunities could set goals across sectors with alignment.

What is old?

Let's rethink aging.

#DisruptAging

There are more people on the planet than ever before and they're living longer, healthier lives. They're exploring new territories and pioneering new behaviors, like reinventing how we work, live and play.

It's time to change the conversation on aging. It's time to challenge outdated beliefs and spark new solutions so we can *all* choose how we live as we age.

Let's seize the opportunity to create a new vision for aging — one complete with new stories, new innovations, and new civic solutions. Join us today. www.DisruptAging.aarp

11:10am-11:50am Age Stage: Honoring Our Elders
Level 2 Lobby (CC)

Come see large-scale painted portraits of septuagenarians, octogenarians, and nonagenarians from an artist's adopted home in northern Mexico. In their faces we read not only their hardships but also their unbroken kindness and spiritual essence.

11:50am-12:30pm Age Stage: The Power of the Stories
Level 2 Lobby (CC)

We naturally listen for stories and pay attention when they are told, remembering what we learn from them far more readily than when ideas are conveyed through other means. Come hear teaching stories that engage the mind through emotions and vivid images, and be inspired to use stories of your own to convey visceral interest in the lives of elders.

12:40pm-1:30pm Age Stage: Dolls of Hope

Level 2 Lobby
(CC)

Starting in 1998, HIV-infected women and noninfected women were brought together to make dolls for HIV/AIDS orphans in the African American community. With both public and private funding, the project has been operational now for over 18 years. Come hear Cynthia Davis, the founder of the Dolls of Hope Project, describe how the project now works internationally to bring together HIV-positive women to share their stories, break the community's silence, and educate at-risk uninfected women and girls.

Innovation Theater: Influenza in Older Adults—A Vulnerable Population

Influenza infection presents a substantial threat to the health of older adults. In industrialized countries, the majority of influenza-associated deaths occur among people age 65 or older. The most effective way to prevent influenza is immunization. However, older adults have a decreased immunologic response to influenza vaccine as a result of immunosenescence. This presentation will explore strategies for prevention of influenza in seniors and share key data from clinical trials of a vaccine developed in response to the need for a more effective influenza vaccine in the older adult population.

ORAL HEALTH AN ESSENTIAL ELEMENT OF HEALTHY AGING

Interprofessional Solutions for Improving Oral Health in Older Adults: Addressing Access Barriers, Creating Oral Health Champions

 **DATE:** JULY 24, 2017

 **TIME:** 12:30–2:00 PM

 **LOCATION:** MOSCONE WEST, ROOM 3022

As an essential element of healthy aging, oral health in older adults deserves expanded attention in clinical, economic/financial, and humanistic aspects of care as well as in the curricula for dental and other health professionals. Hear about the concepts and solutions generated by a multidisciplinary audience to address access barriers and create interprofessional oral health champions in research, education, policy and funding arenas.

Center for Healthy Aging Research at Oregon State

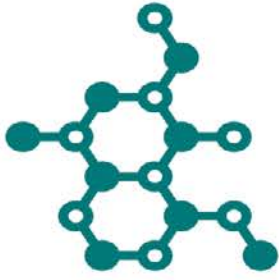

Our faculty and students study everything from how the body ages at the genetic and cellular levels to the social impacts of aging — all with the goal of advancing life-long health and well-being. Our research, teaching and outreach programs are out there promoting resilient aging for older adults, their families and communities.

DISTINGUISHED MEMBERS GRANTED FELLOW STATUS

This year GSA's Executive Committee approved 72 individuals from nine countries for fellow status within the Society. Fellow status is a peer recognition for outstanding contributions to the field of gerontology, and represents the highest class of membership. This distinction comes at varying points in a person's career and is given for diverse activities that include research, teaching, administration, public service, practice, and notable participation in the Society.

University of California, San Francisco

San Francisco is an international hub of biomedical research, financial services, and technological innovation. As the host city for the 2017 IAGG World Congress, it is also home to major academic institutions and research centers in the aging field. Join leading researchers, clinicians, and educators from one of these renowned institutions, the University of California, San Francisco (UCSF), in a series of sessions showcasing new scholarship emerging in the field of aging.

Supported by

3725 Symposium: University of California, San Francisco: A Leader in Aging Research, Clinical Care, and Policy Work

12:00pm-1:30pm
Room 2018 (CC)

Chair:
Wendy Max

Presentations:

- Bringing the Biology of Aging to the Bedside, *John Newman*
- Epidemiology of Aging: Prevention of Decline and Diseases in Aging, *Mary Haan, Jackie Torres*
- The Future of the Age-Friendly Health System at UCSF, *Louise Walter*
- Role of Technology and Industry Partnerships, *Adam Gazzaley*
- The Social Implications of Global Health Disparities in Aging, *Howard Pinderhughes*

Lunch provided to first 150 attendees.

3780 Symposium: Extending Quality Life Years

2:00pm-3:30pm
Room 2018 (CC)

Chair:
Eric Verdin

Presentations:

- Modifiable Risk Factors to Prevent Cognitive Decline, *Kristine Yaffe*
- Hearing Health Care: A Public Health Imperative, *Margaret Wallhagen*
- The Impact of Arts Engagement for Older Adults: What's the Evidence?, *Julene Johnson*
- Reducing the Global Burden of Oral Diseases in Older Adults, *Susan Hyde*
- Molecular Mechanism of Lifespan Extension by Caloric Restriction, *Hao Li*

3950

Symposium: Innovations in Care

4:00pm-5:30pm
Room 2018 (CC)

Chair:
Laura Wagner

Presentations:

- Evidence-Based Approaches to Improving Care for Older Adults With Serious Illness, *Christine Ritchie*
- Economics of Models of Care Delivery: Then and Now, *Leslie Wilson*
- Models for Improving Medication Use for Older Adults, *Michael Steinman*
- The Dental Gap: Mismatch Between Policy and Oral Care Delivery Needs for Individuals in Long-Term Care Settings, *Cynthia Wides, Keely Walgama, Elizabeth Mertz*
- The Care Ecosystem: Development and Early Results From an Adaptive and Scalable Dementia Care Program, *Katherine Possin*
- Addressing Global Dementia Challenges Through Inter-Professional Training: The Global Brain Health Institute, *Jennifer Merrilees, Victor Valcour, Brian Lawlor, Scott MacDonald, Ian Robertson, Bruce Miller*

4125

Symposium: The Promise: Hot Topics

6:00pm-7:30pm
Room 2018 (CC)

Chair:
Carroll Estes

Presentations:

- Mortality in an Aging Society: Managing New Pathways to Death, *Barbara Koenig*
- Lifecourse Determinants of Healthy Aging and Health Disparities: New Data Sources to Improve Causal Evidence, *Maria Glymour, Nancy Adler*
- Is Older Age Disability Really Preventable?, *Kenneth Covinsky*
- Extending Our Healthspan: The Promise of Bridging Biological, Social, Behavioral and Policy Sciences, *Elissa Epel*

7:30pm-9:00pm UCSF Reception

*Thirsty Bear, 661
Howard Street*

Salon 4

6:30am-7:45am GSA Interest Group: Hospice, Palliative, and End-of-Life Care
Salon 3 (M)

6:30am-7:30am GSA Interest Group: Research on Cancer and Aging
Salon 6 (M)

6:30am-7:45am GSA Interest Group: The Hospital Elder Life Program (HELP)/ Delirium Prevention
Pacific E (M)

7:00am-4:30pm Registration Open
Level 1 Lobby (CC)

7:00am-7:00pm Speaker Ready Room
Overlook 2014 (CC)

Visit the Speaker Ready Room to prepare for your presentation! The computers are configured with the same hardware and software as those in the presentation rooms. If you do not submit your presentation in advance, you must bring it to the Speaker Ready Room. All presenters are asked to submit their final presentation revisions no later than 4 hours prior to their presentation time. You cannot bring your presentation to your meeting room on a USB drive; it must be uploaded in the Speaker Ready Room.

Salon 10-11 (M)

7:30am-4:30pm Student Lounge
Nob Hill A (M)

The student lounge at the IAGG 2017 World Congress of Gerontology and Geriatrics provides a place for students and emerging scholars to rest from the hectic conference pace, network with fellow members, meet with colleagues, enjoy refreshments, and check email on the computers provided in the lounge. Please stop by!

Informal Chat, 5:30pm-6:30pm

The Pathway to Independent Research: Tips and Training Opportunities

This two-part event is geared toward advanced doctoral students, transitional members, and junior faculty members who are actively pursuing a research-focused career. This chat will feature an interactive panel of early career researchers who can offer guidance on the pathway to independence. All panelists are alumni of the National Institute on Aging (NIA) Butler Williams Scholar Program, an annual event designed to provide emerging scholars with the tools and resources to develop successful research grants. Following this chat, join panelists and

other attendees for an informal networking event meant to bring together Butler Williams Program alumni, potential applicants, and NIA program staff.

8:00am-8:25am Age Stage: There Is a Place: The Power of Music During the End of Life
Level 2 Lobby (CC)

Music can awaken togetherness in the face of memory loss and loneliness at the end of life. This short documentary follows a musician sharing his gift of music with dementia care communities around the San Francisco Bay Area.

3395
Symposium: The Canadian Longitudinal Study on Aging (CLSA): A Platform for Research on Aging

HS

8:00am-9:30am
Room 2000 (CC)

Chair:
Susan Kirkland
Discussant:
Andrew Wister

Presentations:

- The Canadian Longitudinal Study on Aging: Study Design and Methods, *Susan Kirkland, Christina Wolfson, Parminder Raina, Lauren Griffith, Mark Oremus*
- Multiple Chronic Conditions in Relation to Disability and Social Participation: Data From the CLSA, *Lauren Griffith, Anne Gilsing, Edwin van den Heuvel, Sohel Nazmul, Phil St. John, Parminder Raina*
- Associations Between Sensory Loss and Social Networks, Participation, Support, and Loneliness, *Paul Mick, Margaret Kathleen Pichora-Fuller, Walter Wittich*
- Understanding Inequalities and Inequities in Health and Wellness Among Older Canadians, *Yukiko Asada, Jeremiah Hurley, Susan Kirkland, Michel Grignon*

★★★

8:00am-10:00am **Local Educational Trip: Tour of On Lok Site**
Off Site

Separate fee and pre-registration required. Buses will depart from Moscone West, Howard St. entrance.

On Lok is a government funded, fully capitated comprehensive provider of both medical and long-term care to individuals who otherwise would be eligible for nursing home placement. Ninety-four percent of participants remain in the community. The chief medical officer will offer a tour through adult day care centers and medical clinics.

8:00am-12:00pm **Local Educational Trip: The Moldaw Residences Experience**
Off Site

Separate fee and pre-registration required. Buses will depart from Moscone West, Howard St. entrance.

Moldaw Residences is located on 8.5 acres in the heart of Silicon Valley. Based on Jewish values, it is a nonprofit retirement community where intergenerational, social, educational, recreational, and entertainment opportunities stimulate continued growth. Visitors will have an opportunity to tour the residences and the Jewish Community Center. The Moldaw motto: Inspired Retirement Living. LIVE. GROW. FLOURISH.

8:30am-9:10am **Age Stage: The Age of Love**
Level 2 Lobby (CC)

This independent documentary offers a playful yet profound exploration of the time-tested, still-hopeful hearts of a group of 70- to 90-year-olds who attend a first-of-its-kind Senior Speed Dating event. The film's wide range of typically overlooked elders have one thing in common—all feel alone, invisible, and ready to open their hearts and lives to someone new. By exploring these older, still-passionate voices—relatable to any age group—the film dispels ageist stereotypes, reveals how people's core emotional needs endure, and presents a new story of growth and possibility in later life.

9:00am-10:00am **IAGG Council of Student Organizations Business Meeting**
Sierra B (M)

9:10am-9:50am **Age Stage: Bodies Mapping Time**
Level 2 Lobby (CC)

A woman's body tells her biography, with each stage of aging inscribing itself into her flesh and marking her progress through life. Photographic portraits that honor and celebrate women's later lives will be shown by the photographer as he depicts the dignity with which each woman had a hand in choosing the images that best represent her.

Jack Watters Memorial Symposium: Coming Out as A Caregiver

In memory of Jack Watters MD, who spearheaded Pfizer's approach to healthy aging establishing a center of excellence, served on boards of organizations focused on ageing, and was a tireless spokesperson on the topic. He was an activist fostering positive change to enhance the lives of millions within the health arena and areas of social justice, including LGBTQI rights.

Tuesday
July 25

In tribute to Jack, Dr. Jane Barratt, Secretary General of the International Federation of Ageing, and four renowned leaders in the field of ageing will use storytelling to provide a cross-cultural perspective on Caring. The session will address caring in the context of gender, the LGBTQI community, conflict zones, low economy country perspectives and psychological factors.

11:40am-12:20pm **Age Stage: In the Moment: Living Well With Dementia**
Level 2 Lobby (CC)

Seattle's new community-wide movement—termed Momentia—rejects the tragedy narrative and embraces life in the moment for people living with dementia. Learn how a public art museum and an art-focused adult day center joined hands to bring

out the artist in people with dementia. Be inspired to return to your own community and find creative collaborations that add momentum and verve to all that dementia leaves unharmed.

12:00pm-5:30pm **Local Educational Trip: Imagine a World Where Growing Older No Longer Means Growing Ill**
Off Site

Separate fee and pre-registration required. Buses will depart from Moscone West, Howard St. entrance.

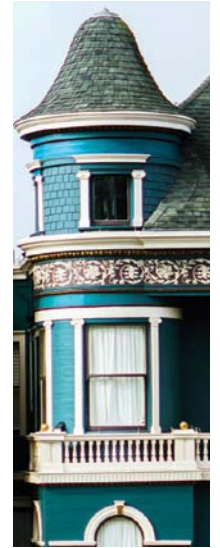

Scientists at the Buck Institute for Research on Aging are world leaders in efforts to extend healthspan, the healthy years of life. Come tour the I. M. Pei facility and hear from researchers who are pursuing geroscience, which is focused on understanding the connection between normal aging and chronic disease.

12:20pm-12:40pm **Age Stage: The Artist Within**
Level 2 Lobby (CC)

This exhibition displays exhilarating artwork by 43 individuals, ages 60-101, living with dementia. The paintings speak for themselves, opening hearts and minds to the realization that the people who live with dementia are still here—capable of living with dignity, creativity, and joy.

Age Stage: *Wilhemina's War*

This documentary focuses on an older African American grandmother, Wilhemina, who endures many trials and tribulations as her daughter gets sick and passes away from HIV/AIDS while her granddaughter goes through bullying and rejection. We follow the family over a 5-year period as the granddaughter matures from a 15-year-old to a young adult living with HIV/AIDS. This vivid depiction demonstrates the crucial role that film can play in reducing stigma and discrimination.

Age Stage: Living Canvases

Art created through a series of life review workshops and some of the stories that inspired such artistic creations will be presented by the elder participants and the young artists who received their stories. Intergenerational creativity is showcased in this unique example of life as a canvas upon which we express who we come to be.

3:30pm-3:50pm **Age Stage: One Morning I Looked in the Mirror and Didn't Recognize Myself**

Level 2 Lobby
(CC)

Hear award-winning gerontologist, artist, and author, Lucy Rose Fischer, PhD, portray the experience of growing older with wit, whimsy and vibrantly fanciful art. Incorporating audience dialogue, she will discuss her series of glass artworks on the theme of aging and will read from her colorful picture-book, *I'm New at Being Old*.

3:50pm-4:20pm **Age Stage: Transgender Tuesdays: Film Clips of Older Adults Telling Their Stories**

Level 2 Lobby
(CC)

In excerpts from a 2013 documentary, eight courageous transgender 55- to 80-year-olds discuss their lives before respectful employment options or sensitive medical care existed. These film clips of older adults telling their stories will be played with pauses for questions and comments.

Better Health, Brighter Future

Vaccines prevent between 2-3 million deaths per year and have greatly reduced the burden of infectious diseases worldwide¹.

Building upon two centuries of healthcare experience in Japan, Takeda's worldclass vaccine team is demonstrating leadership in global vaccine development and delivery. Substantial investments in vaccine R&D aim to tackle the world's most challenging health problems for which there is currently an unmet need.

With the breadth of expertise, Takeda will always be committed to addressing the world's most pressing public health issues.

7:00am-5:00pm **Speaker Ready Room**
Overlook 2014 (CC)

Visit the Speaker Ready Room to prepare for your presentation! The computers are configured with the same hardware and software as those in the presentation rooms. If you do not submit your presentation in advance, you must bring it to the Speaker Ready Room. All presenters are asked to submit their final presentation revisions no later than 4 hours prior to their presentation time. You cannot bring your presentation to your meeting room on a USB drive; it must be uploaded in the Speaker Ready Room.

7:30am-4:30pm **Student Lounge**
Nob Hill A (M)

The student lounge at the IAGG 2017 World Congress of Gerontology and Geriatrics provides a place for students and emerging scholars to rest from the hectic conference pace, network with fellow members, meet with colleagues, enjoy refreshments, and check email on the computers provided in the lounge. Please stop by!

Informal Chat, 5:30pm-6:30pm

Writing, Dissertations, and Publications...Oh, My!

Join us for a lively informal chat where you choose the area of focus. We will have a brief presentation on the three topics followed by access to staffed tables for Master's thesis/capstone, dissertations, and publishing—each with a facilitator to share best practices and resources, as well as to answer questions and address your specific needs.

K-YangSaeng Exercise Performance

K-YangSaeng Exercise was developed by Prof. Won, Young-Shin at Yonsei University in Seoul, Korea. She has choreographed utilizing the Korean dance and yangsaengdoibeop written in the book of Hwalinshimbang famous Confucian scholar of Korea Toegye 16th century wrote. It consists of breathing exercises, acupressure, flexibility exercises, and internal organ stimulation from palm and underfoot stimulation exercise. It is ideal for people in the (young-middle-old) old stage of their senior life. Its content is to infuse energy into human body and mind, promote vitality, and focus on governing the mind and emphasize on association of body and mind.

12:00pm-1:30pm **Biological Sciences Section Career Development Workshop**
Room 3024 (CC)

Trainees in Biological Sciences are invited to participate in this interactive roundtable workshop. Starting with a presentation from NIA officers on NIA funding initiatives, trainees will be invited to move from station-to-station, where mentors will discuss a variety of career-developing themes.

1:30pm-4:30pm **Local Educational Trip: Dr. George W. Davis Senior Center and Residence**
Off Site

Separate fee and pre-registration required. Buses will depart from Moscone West, Howard St. entrance.

Bayview Senior Services promotes charitable social welfare among older adults and provides and assists in the provision of affordable housing and related services for very low, low, or moderate income households. The Dr. George W. Davis Senior Center and Residence incorporates supportive services within low-income housing for elders.

1:30pm-4:30pm **Local Educational Trip: Walking the Labyrinth: Discover Innovation and Celebration**
Off Site

Separate fee and pre-registration required. Buses will depart from Moscone West, Howard St. entrance.

Grace Cathedral is an Episcopal church and site of the rebirth of the labyrinth, currently being used worldwide as a path to self-reflection and rejuvenation, as a non-denominational, cross-cultural blueprint for well-being. In this workshop, trained facilitators will guide participants

in the history and best practices of this walking meditation. Two labyrinths are onsite (one indoor, one outdoor) and books and related labyrinth materials are available at the gift shop. Visit <http://www.gracecathedral.org/our-labyrinths/> for more information.

East Meets West Forum: Long-Term Care Policy and Practice

Meeting long-term care (LTC) needs for older adults is a common challenge for China and the United States. This forum will bring together four experts, two from China, and two from the United States, to discuss the development of LTC policy and practice from each country, respectively. The first two presenters will address financing of long-term care and policy development in China and in the United States. A major focus will be on how financing links to quality assurance. The potential for change in the United States and how China can avoid the pitfalls of the United States will be reviewed. The second half of the forum will focus on LTC practice. Innovative approaches to care will be reviewed, as well as current required practice and associated issues and challenges. The audience will have a chance to interact with the presenters and enrich the discussion in the forum.

Presentations:

- Long-Term Care Policy Development in China, *Jinying Wang*
- Do What We Say, Not What We Do. Implications of Long-Term Care Financing in the United States for Asia *Joshua M. Wiener*

Some things just don't fit the way they used to.

And your patients may not realize that could matter to their health.

Their age, changing health conditions, and medicines they take can increase the risks associated with certain over-the-counter (OTC) pain relievers.

Send your patients to **GetReliefResponsibly.com**

They'll find an easy-to-understand comparison chart to help them choose and use OTC medicines safely.

1:30pm-6:30pm Muir Woods & Sausalito Tour*Off Site**Separate fee and pre-registration required. Buses will depart from Moscone West, Howard St. entrance.*

Drive across the Golden Gate Bridge to experience the grandeur of some of the largest trees on earth, the Californian redwoods! Breathe in the enchanting smell of Muir Woods, and walk among these celestial giants in the inspiring hills of Marin. Until the 1800s, many Northern California coastal valleys were covered with coast redwood trees similar to those now found in Muir Woods National Monument. Learn about this natural beauty, then explore and hike at your own pace. The trails range from flat boardwalks to steep trails. Following Muir Woods, travel to Sausalito where world-class hotels, plentiful restaurants, and a diverse selection of shopping opportunities, galleries, and retail fashion shops are found. Guests will have free time for shopping and lunch. Fee includes: admission to Muir Woods National Monument, free time to explore, free time in Sausalito, and transportation.

The Ryman Prize is at IAGG 2017!

The Ryman Prize is an international award aimed at encouraging the best and the brightest thinkers in the world to focus on ways to improve the health of older people.

The world's ageing population means that in some parts of the globe – including most of the Western world – the population aged 75+ is set to triple in the next 30 years.

In order to stimulate fresh efforts in the field, the Ryman Foundation is offering a NZ\$250,000 (US\$165,000) annual prize for the world's best discovery, development, advance or achievement that enhances quality of life for older people.

The 2016 Ryman Prize was won by Professor Henry Brodaty, a world class researcher and leading figure in Alzheimer's care.

Gabi Hollows, founding director of the Hollows Foundation, won the inaugural Ryman Prize in 2015 for the foundation's work to restore sight for more than 1 million people.

If you have a great idea, or have achieved something remarkable like Henry and Gabi, we'd love to hear from you!

BOSTON UNIVERSITY SCHOOL OF MEDICINE DIRECTOR OF RESEARCH

Boston University (BU) School of Medicine, Section of Geriatrics, seeks an experienced investigator in aging research with demonstrated leadership skills to lead its research efforts and develop interdisciplinary collaborations at BU and in greater Boston (e.g., New England GRECC and the Boston Older Americans Independence Center). He/she must hold an MD or PhD degree and have an established track record of external grant funding and published scholarship. Mentoring of junior faculty, fellows and other trainees will be a high priority for the successful applicant. Faculty position will be commensurate with experience. The Section has active research programs in exceptional longevity, functional impact of chronic kidney disease, and multiple educational and clinical innovations. Although the Director's research focus need not be in any of these areas, he/she will be expected to develop collaborations with BU School of Public Health and Department of Medicine Centers including, but not limited to the BU Alzheimer's Disease Center, the Clinical and Translational Science Institute, the Framingham Heart Study, the Center for Implementation and Improvement Sciences, and the Health and Disability Research Institute. BU is committed to building a culturally diverse faculty and strongly encourages applications from female and minority candidates.

Bonds

The chemical bonds used to form new molecular therapies are not the only ones important in cancer treatment. We're focused on helping you preserve the bonds that are most meaningful to your patients.

Focused on what truly matters.
